STUDENTS ENGAGE IN AN INGENIOUS CONVERSATION WITH THE PRINCIPAL

In a remarkable display of student initiative and engagement, a group of talented students from XI Commerce recently had the privilege of conducting an insightful interview with our esteemed school Principal, Mr. M.S. Wig. The interactive session left the students inspired and motivated to pursue their own aspirations.

Interview Highlights

***Sir, there is a famous quote that says, "A journey of a thousand miles begins with a single step.", but taking that initial step can often be the most challenging. Could you please suggest some ways to overcome this hurdle and take that crucial first step?**

To succeed, it's important to understand our strengths, weaknesses, and abilities. While everyone experiences fear, knowing our strengths can empower us to overcome challenges. By learning from our mistakes, we can grow and progress in our endeavors.

***Sometimes we encounter situations that leave us feeling demotivated. How can we overcome these circumstances?**

Competitive spirit is a benchmark when your goals are set. Competition helps us push forward and achieve our targets.

***How can we utilise our competitive spirits in a positive way, Sir?**

To utilize competitive spirits in a positive way, you should set meaningful goals, focus on your personal improvement, learn from others and celebrate others' successes.

***How can we effectively use knowledge and values acquired from school activities, such as moral talks and skits, in the future?**

School provides a foundation for life. As you progress, you encounter different situations. Qualities such as discipline, values, and skills enable success in any profession. While academics contribute to a certain level of achievement, values and quality take you to the next level in life.

***Is it always the marks that matter in life, Sir?**

Experience and life skills are more valuable than academic marks as they reflect a person's abilities and competitive spirit. While some students excel academically but struggle in real-life situations, others may underperform academically but do well in their lives. So, basically, good academic record gives one a platform but it is not indicative of success always.

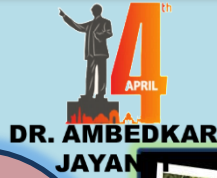

***What are your key mantras to excel in life?**

You can achieve whatever you want in life. Always remember to never give up, and keep trying.

***When asked how to tackle negativity, Sir shared the story of a Deaf Frog trapped in a pit with other frogs...**

The story goes that a group of frogs was trapped in a pit, and despite their efforts, they were unable to escape. However, one of the frogs was deaf, and could not hear the others when they gave up. The deaf frog continued to jump and try to escape, and eventually managed to jump out of the pit, leaving the others still trapped.

One lesson from this story is the importance of not being influenced by the negativity or defeatism of others. The deaf frog in the story was able to escape because it was not influenced by the others when they gave up, and continued to try and escape. This shows the value of staying focused on one's goals and not being swayed by the opinions of others.
